The Managed Miner feature is only available for miners running Windows • Alternative #2: Awesome Miner can connect to any computer running Claymore's Dual Ethereum+Decred Miner if the API is enabled.. Alternative #1: Manage new miners • Step 1: Click 'New miner '. From the Awesome Miner interface, this can also be performed on remote computers where is installed.

Two alternatives: Manage new miners or Monitor existing miners • Alternative #1: Awesome Miner can setup new managed mining instances of Claymore's Dual Ethereum+Decred Miner where the mining software is automatically installed, managed and started from Awesome Miner.. It can be any computer, Windows or Linux, as long as the mining is running already.
